About us

Established in 1991, New Classic Toys is where classic quality and contemporary design meet. With a mission to make lovable, dependable toys that promote learning and exploration. Our family-run business specializes in making traditional wooden toys and games that are made to last for generations.

At New Classic Toys we believe that playing is not just fun, but also very important. While playing children get familiar with the world around them by building, stacking, making music or imitating. Playing contributes to the development of problem-solving skills, hand-eye coordination and fine motor skills. That's what makes playing educational and valuable for any child! With safety always our top priority.

From our family to yours, we hope that our toys bring as much happiness to your home as they have to ours! Because every childhood should be filled with moments that are joyful, memorable and ever-inspiring.
